## WHAT DO I GET BY JOINING THE STAR CITY BREWERS GUILD?

Membership provides access to club meetings, homebrewing events and a chance to connect with fellow homebrewers. You get to hang out with a diverse group of people who are craft beer lovers! There is a great appreciation for uniquely American style beers as well as popular styles from around the world.

Our members have a passion for not only brewing great beer, but for supporting it all the way around: from grain to glass. We have members who have been brewing for decades along with members who have just started, and even members who just love great beer and supporting the local craft beer scene.

Locally, we give demonstrations on homebrewing like *Big Brew/Homebrew Demo Day* (May), and *Learn to Homebrew Day* (November). These are great ways to meet and help educate people in the community about beer and brewing.
